- Managed the relationship between Whirlpool operations and over 20 global suppliers including over 1000 different origins and destinies and volume of approx. 77,000 TEUs. between 2 regions, NAR US-Canada and LATAM, producing substantial savings. SKUs: 1,560 finish goods and 65,000 spare parts, leading a direct team of 2. Global business partners: 15. Spending: ocean $195 million, AA $21 million, final mile $450k.
- Developed a global strategy with a medium sized construction company which resulted in 400 international leads in about 1 month.
- Opened new markets for American companies in Mexico as part of the US Consulate through one-time sales, franchises, brand representation, or company distribution, providing market intelligence and connections helping businesses get the first sale during that first export mission/project.
- Investigated the market need for mobile education, online training courses on behalf of the US Consulate, resulting in market penetration of 38 countries and translating the content of the course into Spanish, increasing international sales by at least 12%.
- Managed a students database from the ITESM Monterrey which provided official and national and international statistics including reports-graphics and presentations for the University authorities, mass media, career directors and planning area.
- Grew data recollection areas from 5 to 10 at ITESM Monterrey including graduate students, PhDs, professors, and admin, utilizing advanced MS office programs, SAP and proprietary software to present to global executives, every semester.

Supplier/Carrier Development

- Saved approx. 130% in ground transportation tariffs for Whirlpool Mexico by negotiating with the vendor and creating standardized contracts and fees.
- Developed over 43 providers and manufacturers for client companies according to requirements, doubling the client growth in one year, and increasing by 5 to 15 the product portfolio per client following quality standards.

- Reduced delivery time of R&F Co. from 15 days to 5 by negotiating and closing a deal with a distribution center closer to the border.
- Developed 8 new providers for R&F Co. by performing a deep analysis and comparison on prices/markets, chain distribution, brand representation with high-quality material, performance, certifications, production, and time capacity.

Project Management/Continuous Improvement

- Reduced the number of Whirlpool customs brokers from 30 to 7 in one year resulting in an increased negotiation capacity that improved tariffs, logistics alignment, measuring provider's performance, and reducing confusion.
- Defined and implemented a continuous improvement process at Whirlpool which included the weekly shipping Whirlpool forecast, ensuring over 20% space vessel confirmation.
- Processed an average of 1,500 pediments per year as a freelance consultant, resulting in 95% of the completed import/export process and 100% harmonized tariffs.
- Coordinated over 65 projects as a freelance consultant, closing negotiations with originals US manufacturers and distributors from the food and beverage, electronics, fabric, personal care and beauty, pharmaceutical, chemical, industrial cable and education industries mainly.
- Coordinated and organized 2 gala events for at least 500 attendees, a bazaar, and a charity play, raising over $500k in total to sponsor Mexican entrepreneurial efforts and companies as a confidential contractor.
- Changed the payroll system from cash to electronic for a confidential client, saving 2 days in processing the transaction, and minimizing risk, and optimizing control.
- Developed and implemented an inventory database of over 2,000 valuable household items, including categories, value, picture, loan terms, responsible staff member, and more for a confidential client.
- Created a preventive maintenance schedule as personal assistance for a confidential client for automobiles, electronics, electrical appliances, etc. diminishing failures by 80%.
- Created an online database with 60,000 student registries for ITESM Monterrey, automating and giving 24/7 access of the information to key stakeholders, and reducing by half the admin time used to process the information.
- Established a continuous improvement process, for the first time in Whirlpool, resulting in over 75% space savings in a warehouse location, and 10 extra days for the import process to take place.

Cost Reduction

- Saved an additional 27% in cost avoidance traffic staff dedicated exclusively to Whirlpool in 3 months.
- Developed a comparative matrix about the state of the current and old market as a freelance consultant, resulting in a profit of approximately 11% for a specific client.
- Reduced import cost between 15%-30% with forwarder using incoterms, warehouse expenses, time, freight, etc. or R&F Co.

Contract Negotiation

- Led negotiations with global vendors at Whirlpool of a contract clause minimizing the impact of fuel price fluctuations and reducing admin work by approx. 2 weeks which was later applied globally.
- Saved approximately 10% per client in fleet, product, and pricing by negotiating with key suppliers including approximately 80% of the already developed in private practice.
- Built R&F Co.'s credit, with at least 4 providers, including a credit of 30 to 90 days, by analyzing the current spend, frequency, volume, and time to pay.

- Hired compensation benefits firm for the household staff for the first time, increasing efficiency and improving work climate.
- Managed visits to ITESM Monterrey from over 50 universities around the world, acting as a liaison in international public relations, resulting in 25% of closed agreements for the university.

Import/Export Consulting

- Provided comprehensive import and export consulting services to consumer product small and medium companies with a presence in Latin America, taking them from the local to the global market.
- Export consumer product of 14 companies to 15 different countries around the world, representing at least 80% growth for each of them in the middle of the 2008 financial crisis as a freelance consultant.
- Managed the import and export process for a chemical distributor in Mexico, called R&F Co. with sales of up to $15 million/year, leading a team of 2.

International Business Development

- Opened the first 5 carpet franchises in 2007 in Mexico as part of the Trade-Aid in the US Consulate in Mexico with sales of over $470k/year which had turned to 58 nationwide by 2016 and sales of $5.5 million/year.
- Helped a nutritional supplement company in the US grow by 15% and increase sales by 30%, through the opening and consolidation of the Mexican and Croatian markets working for the US Consulate in Mexico.
- Gained 5 brand representations within Mexico and Latam for R&F Co., with 3 additional in progress, through negotiations with manufacturers, increasing credibility through cash purchases, and client referrals.
- Doubled sales by changing international strategies and the negotiation approach with suppliers for R&F Co., as well as by creating a database for the first time, including payment terms, revised prices, incoterms, International agreements (NAFTA, EU), forecast, and delivery times.
